Art Unit Predictions

Statistics for the five most-likely results, in decreasing order

Art Unit	Allowance rate	Pendency (months)	Avg. no. of Office actions	% granted with appeal
2421	75%	38	2.3	8%
2427	61%	42	2.4	11%
2423	67%	41	2.6	7%
2425	67%	40	2.5	11%
2144	65%	46	2.6	8%

§101

Eligibility based on similarity to claims rejected under 101 for abstraction

Words related to low eligibility:

subscribed
value

interest
metric

notify

reflecting

§102 §103

Novelty based on most-similar pieces of art

§112

Clarity issues based on language defects in the application

7

Antecedent basis issues

8

Figure reference issues

4

Unsupported claim terms

2

Claim order and format issues

Antecedent-basis issues

The following 5 antecedent basis issues were identified in the claims

Term phrase	Issue	Claim(s)
the user of the media content item	Missing introduction	1, 17, and 20
a user	Term is previously introduced	4
the selecting	Missing introduction	6–8 and 14
a media content item	Term is previously introduced	6 and 8
users of the content sharing platform	Term is previously introduced	6

Claim support issues

The following 4 concepts were not described in the specification

Concept	Claim(s)
topic	5 and 18
source	5 and 18
authorized	5 and 18
non-transitory	20

Claim number and format issues

The following 2 number and format issues were found in the claims

Issue	Claim(s)
Fix whitespace	20
Unexpected claim number	14

Parts list

The following 65 numbered parts were identified in the specification

Part No. we commented on

Part No.	Part name(s)	No. of uses
100	content sharing platform delivery platform media content sharing platform	15
110	front-end server(s) front-end streaming server(s) streaming server	8
	content sharing platform	2
114	content data store content store	5
115–118	network	6
119	personal computers	1
120	client device(s) mobile computing device(s) peer mobile computing devices	16
	recipients	1
130	user notification server	3
160	activity item	1
200	media content channel	1
200a-200z	content channels	1
210	media content items	1
211	playback bar	1
213	play time display	1
400	GUI example graphical user interface (GUI)	9
405	button	2
405, 410, 415	buttons	1
410	button	1
411	subscriptions section	3
415 through 440	buttons	2
415, 420, 425, 430, 435, 440 and 440	buttons	1
427 or 437	'subscribe' button	1
435	user activates (e.g., clicks on or selects) button	1
450	activity feed	4
460	activity item	1

Part No.	Part name(s)	No. of uses
460, 465, 470, 475, and 480	activity items	1
461	icon	2
465, 470, 475, and 480	activity items	1
466, 471, 476, and 481	icons	1
470	activity item	1
470 and 480	activity items	2
472 and 482	buttons	1
500	computer system exemplary computer system	9
	GUI	8
502	processing device (processor) processor	7
504	main memory	3
505	media portion	9
506	static memory	1
510	video display unit	1
511	playback bar	2
512	playback slider	3
	input device	1
513	play time display	2
516	network	1
518	data storage device	2
521	play button	2
522	network interface device	2
	pause button	1
523	rewind button	2
524	fast forward button	2
	computer-readable storage medium	2
525	volume button	4
526	instructions	5
530	bus	1
531	volume bar	4
532	volume slider	6
550	media item section section	5
551	icon	1
552	button	2
552, 553, and 554	buttons	1
553	button	2
554	button	2
600	method	6
610–640	block	5
